SHAKE UP YOUR SHAPING

1 day

£400

CPD 7 points

COURSE TUTOR:	Dhiraj Arora
LOCATION:	Etc, 52 Chancery Lane, London (nearest tube: Chancery Lane/Holborn)
INCLUDES:	Breakfast, lunch and afternoon tea included Workstations with individual motors and materials including PPE will be provided to ensure a safe and comfortable working environment Learning objectives and CPD hours will be awarded as per GDC requirements

Evolve, elevate and enhance your endodontics with evo endo. This is an opportunity to join the evo endo family where you can submit challenging cases to get useful hints and tips to assist you with your future endodontic journey.

A full day course for delegates to experience safe, practical and time-saving endodontic mechanical preparation techniques using the Hyflex EDM file series. This training will help you to develop confidence in creating smoother, safer and more sophisticated root canal shapes.

Delegates will work on extracted/3D printed teeth and gain hands-on experience using the Coltene Hyflex EDM files as well as the NEW Jeni Motor. The fundamental principles of mechanical preparation including glide path creation will be discussed and demonstrated.

AGENDA

8:30 – 9:30	Registration and breakfast
9:30 – 10:30	Improving access and locating canals
10:30 – 10:45	Break
10:45 – 13:00	Shake up your shaping protocols
13:00 – 14:00	Lunch
14:00 -16:00	Hands-on training with the Hyflex EDM file system and Jeni Motor
16:00 -16:30	Afternoon tea Q and A

LEARNING OUTCOMES: C & D

[Course previously called Mindful Mechanical Preparation]
